

Professional Services Packages

How can we help?

We are Streaming Media experts with more than 20 years of experience. We particularly excel in tailor-made solutions and integrations, and achieving results that support your business goals and exceed your expectations.

Real-Time or Low Latency Streaming

- Implementations for live-commerce, online auctions, betting, e-sports and interactive events.
- We work and collaborate with Ant Media Server, Red5Pro, Kurento, Wowza, Nanocosmos, Ceeblue, and many more.

Over-the-Top (OTT)

- Customization and integration of existing OTT platforms or tailor-made solutions from scratch.

QoS and QoE

- Monitoring, Updates, Disaster Recovery, and more.
- We carefully select complete toolsets from vendors like Datadog, logz.io, Touchstream, Mux, NPAW, etc.

Internet of Things (IoT)

- Streaming Media, integrated in our daily life. We provide solutions for access control, video surveillance, smart home, etc.
