

PIXELLOT AIR

Stream, Analyze and Share Every Game Automatically!

Soccer, Futsal, Basketball, Handball, Ice Hockey, Field Hockey, Lacrosse, Rugby, Volleyball, Football, and Baseball

Features

AN INTEGRATED MOBILE SOLUTION FOR LIVE STREAMING, REVIEW AND ANALYSIS

- Pixellot's affordable and lightweight video camera for sports tracks, streams, and records every match and practice, automatically! Now, academies and grassroots teams can capture and analyze every move using video analysis tools employed and perfected by the world's elite clubs.
- The Pixellot solution includes a portable and lightweight AI-automated camera that captures the entire field and tracks and streams the game automatically, with no need for a video operator.
- After the game or practice, the video will be available for coding, tagging, and annotating on Pixellot's app. No need for additional third-party analysis and coding platforms. For an in-depth review, we offer a full video breakdown (game/practice) and detailed team and player analytics to gain a competitive edge, just like the pros. Pixellot Air is the ultimate sports camera for tracking and recording every play.

MSRP: \$849
Your Price: \$799
